

# vAZA Rules

Writed on 12/11/2018

1-vAZA is a virtual airline operative with the airline management system developed by vAMSYS. vAZA is a not profit organization, with the purpose to create a realistic environment for flight simulation, especially in Italy.

2-The privacy policy of vAZA about our technical services, membership, it's the same of vAMSYS (our cloud hosting provider) for the users registered to one of more virtual airlines operative with vAMSYS, available here: <https://vamsys.io/register/privacy>  
vAMSYS is a LTD based in Wales, choosed from vAZA for our internal system for registered pilots. The services provided from vAMSYS for vAZA are payed from vAZA CEO to vAMSYS.

3-There isn't a minimum requirement about your personal activity as vAZA virtual pilot: you can fly when able, and at your discretion.

4-Our PIREP tracker is operative with Windows with FS2004, FSX, P3D and Xplane 10-11 simulators. There are other requirements, such FSUIPC and/or XPUIPC, for the correct work of our smartCARS  
Our virtual airline is operative with these aircraft: A319, A320, A321, A332, B772, B77W, E170, E75S, MD82, B763. Is request to fly with an appropriate livrey. Except software house, aircraft factory and white liveries, any other livrey will implicate the reject of any PIREP (Pilot Report) that will be sent with our tracker. Any flight performed with any other aircraft or

with the livrey applied from another virtual airline will be invalidated (No points, no hours)

5-Flights performed with another aircraft that isn't planned from vAZA staff team for a specific route is allowed, but only if that aircraft can fly between the two airports of selected route (the airports could have an appropriate runway length and apron) and is available inside our fleet, reported inside the vAZA rules.

6-Inside Discord server is mandatory show your real name and surname, and the vAZA Pilot ID code, visible inside vAMSYS dashboard. Be polite with any user, any discrimination, such racism, difference of religion, nationality, will be punished with the termination of your vAZA account.

7-vAZA allow to any user to promote the virtual airlines with video and/or live streaming of your flights, but it's mandatory follow these conditions: don't show any private chat, the internal section for our registered pilots, and also the software applied from vAZA for the flight tracking. It's possible show our logo, available on [virtuaza.eu](http://virtuaza.eu) and the link for our website. vAZA will provide, when possible, to advise and promote any Twitch/Youtube channel that talk about us. These video creator could be monetize their content however, but vAZA will refuse always to get/ask any compensation from these users, in consideration that

any video will be consider from vAZA a personal initiative of any registered user.

8-The virtual airline support IVAO and VATSIM networks. The staff team will provide to advise any vAZA user about any event regarding Italian Airspace created by the Italian Departments of these networks. Any user that will fly on these networks must follow the regulations published about the conduct to apply inside IVAO/VATSIM. If any supervisor, or staff member of these network, will provide to make a report to our staff team about any violation of conduct, vAZA staff could take any appropriate action to maintain an appropriate level of quality of conduct from any registered pilot.

9-Inside our Discord server, is possible ask also a basic support about how to fly online on VATSIM/IVAO networks, but vAZA staff team would remember that for a specific request of support, is strongly recommended to use the forums of these network.

10-If will be necessary add more staff members, vAZA staff team will provide to published the informations regarding the conduct and the requirements inside our Discord server and our Facebook page. Any staff member, should be able to fly on VATSIM and IVAO, have a basic knowledge about how to use PFPX and Simbrief, talk English and be present inside our Discord server.

11-vAZA staff team is against any cracked software: inside our communication platforms, is not possible talk and/or share any link for any cracked payware product.

12-With vAZA, it's possible share your hours of flight only with vAAL, another virtual airline operative with vAMSYS system. Anyway, vAZA is available for the development of any event with any other virtual airline. Event partnership could be started and/or terminate at discretion of our staff team.

13-Any landing that will be performed with a vertical speed more or at -600 feet per minute will be rejected. Weather phenomena aren't an appropriate reason for any contestation regarding the landing rate. If you think that it's present too much wind or a significant weather phenomena, make a diversion.

14-For every flight where it was necessary make a diversion, it's mandatory make a report for advise our staff team about the reasons regarding the diversion. If you will not provide to add the reason, the pirep will be rejected from the automatic system.
